About

I am an artist and illustrator passionate in visual development for games and animations. My key experiences are in character, environment and user interface design for mobile games and I'm always keen to explore new concepts and learn new art techniques.

Work Experience

Dynamite Games / 2D Artist

AUGUST 2020 - PRESENT

- Create art in a wide range of styles from realistic to cartoon, from concept to implementation.
- Conceptualize, design and create in-game visual effects such as character concepts, environments, backgrounds, game interface and menus for mobile games.

Iterative Collective / Freelance

JUNE 2021 - JULY 2021

- Worked under tight schedule on end-to-end character, art direction, animation, UI and UX design for "Kungfu Dash" minigame for ZujuGP featuring an ingame version of Cristiano Ronaldo.

Digital Mirage / Digital Artist

AUGUST 2019 - AUGUST 2020

- Create photorealistic still imagery for architectural visualizations from 3D renders to final postwork through matte painting, digital imaging and color grading.

Education

LASALLE College of the Arts/ Bachelor of Arts, Animation Art

JULY 2017 - MAY 2019

- Second Class Honors (Upper Division)
