Professional Summary

Detail-oriented, adaptable and collaborative visual designer with experience in creating visual and UI content for digital games.

Experience

Dynamite Games / 2D Artist

August 2020 - March 2026, Singapore

- Developed visual assets across a wide range of styles, from realistic to stylized, covering all stages from concept to implementation.
- Conceptualized and designed characters, environments, backgrounds, visual effects and UI elements for mobile games.
- Designed and refined game user interfaces and menus, ensuring clarity, usability and visual consistency.
- Leveraged AI-assisted tools (Midjourney, Stable Diffusion, Runway) to accelerate ideation and production.
- Localized visual assets for different regions and audiences.
- Supervised interns, providing guidance, feedback and quality control across deliverables.
- Contributed to the development and successful launch of over 10 games.

Iterative Collective / Freelance Visual Designer

June 2021 - July 2021, Singapore

- Delivered end-to-end visual development under tight timelines for “Kungfu Dash,” a mobile minigame for ZujuGP.
- Responsible for overall character design, art direction, animation and UI/UX design.
- Adapted visual style to align with brand requirements.
- Collaborated closely with stakeholders to refine visuals based on feedback and project goals.

Digital Mirage / Digital Artist

August 2019 - August 2020, Singapore

- Produced photorealistic imagery for real estate development companies and government projects.
- Created final visuals from 3D renders through matte painting, digital imaging, and color grading.
- Ensured high visual accuracy, consistency, and presentation quality for client-facing materials.
- Supported structured production pipelines and met strict quality and deadline requirements.

Education

Lasalle College of the Arts / Bachelor of Arts (Animation Art)

July 2017 - May 2019, Singapore

Second Class Honours (Upper Division)

Catholic Junior College/ A-Levels

2011 - 2012, Singapore
